Life Path Reading

Mara Quill

Mara Quill · born 9 November 1988 · Sun in Scorpio, Water, Fixed

Mara, you were born with the Sun in Scorpio, the fixed water sign. Scorpio is traditionally the sign of depth: of feelings held close, of loyalty given slowly and then completely, and of a curiosity that prefers the whole story to the headline.

Its traditional ruler is Mars, the planet of drive, and its modern association is with transformation, the old image of the scorpion giving way to the eagle. Many people with the Sun here recognise a pattern of quiet reinvention, often more visible to them than to anyone else.

Questions to sit with: Where in your life do you give the most attention, and does it give you as much in return? What have you changed about yourself that you would like others to notice?

Written for reflection and entertainment. It is not a prediction and not advice about health, money, legal or any other decision.
